

2016 ANNUAL ALL BREEDS

Stallion Parade

A great line up of quality stallions...

ALL BREEDS ARE WELCOME

A direct mail campaign and extensive advertising in the local papers and internet sites will encourage attendance by those people most interested in what each stallion might contribute to a breeding program. Each stud is encouraged to exhibit young stock sired by their stallion and that these young stock will be – as always – stabled in the complex next to their sire and that you may also show these youngsters during the parade

GENERAL INFORMATION

Stallions will be housed in top class stables. Two progeny representing each stallion may be on show during parade times as an illustration of the genetic achievements of each stallion. Only the very best youngsters should be selected to properly promote your stallion and stud; to achieve the desired result they should be in good order. Depending on the level of entries the stables at Cambridge may be allocated without empty boxes between stallions and your young stock, if you have a stallion that must have isolation please tell us on the entry form.

Given my explanation in regard stabling at Cambridge it is imperative that entries are forwarded as soon as practical to enable us to determine the stabling requirement, the timetable and printing a comprehensive catalogue.

The order of parading will be drawn. Entries received after the closing date (if accepted) will parade first. Time payment options are available for those who wish to enter but find for whatever reason that they will have to spread their payments over an agreed period. Please do not hesitate to enquire about this option.

An acceptance/booking form for your stallion that includes an entry section for the youngsters you may parade with your stallion is attached for your completion.

Yours sincerely,

Kevin Cholmondeley-Smith

*A unique opportunity
to view a wide selection
of stallions representing
diverse bloodlines.*
